MAYO  
CLINIC

---

# HISTORY

The nonprofit Mayo Foundation oversees the largest and most renowned private medical center in the world, the Mayo Medical Center of Rochester, Minnesota. The heart of the center is the Mayo Clinic, a research and treatment leader in cardiology, endocrinology, gynecology, neurology, oncology, orthopedics, urology, and a number of other disciplines. The Mayo Clinic, however, is virtually inseparable from two nearby, highly reputed hospitals, Saint Marys and Rochester Methodist, both of which are entirely owned and governed by the Mayo Foundation. Since the mid-1980s, the Mayo Foundation has spearheaded a program to extend the unique Mayo medical system of total patient care far beyond southern Minnesota. Mayo Clinic Jacksonville (in Florida) and Mayo Clinic Scottsdale (in Arizona), both linked via satellite to Mayo Clinic Rochester, are two major outcomes of this nationwide expansion program. The Mayo Foundation also supports the Mayo Graduate School of Medicine, Mayo Medical School, the Mayo School of Health-Related Sciences, and the Mayo School of Continuing Medical Education. The foundation-owned Mayo Health System is a network of 14 community-based clinics and medical centers providing healthcare services to 54 communities in Minnesota, Iowa, and Wisconsin.

# MISSION

To inspire hope and contribute to health and well-being by providing the best care to every patient through integrated clinical practice, education and research.

# VISION

These values, which guide Mayo Clinic's mission to this day, are an expression of the vision and intent of our founders, the original Mayo physicians and the Sisters of Saint Francis.

---

# Respect

---

■ 

---

Treat everyone in our diverse community, including patients, their families and colleagues, with dignity.

---

# Integrity

■ 

---

Adhere to the highest standards of professionalism, ethics and personal responsibility, worthy of the trust our patients place in us.

---

---

# Compassion

---

■ 

---

Provide the best care, treating patients and family members with sensitivity and empathy.

---

# Healing

---

■ 

---

Inspire hope and nurture the well-being of the whole person, respecting physical, emotional and spiritual needs.

---

# Teamwork

---

■ 

---

Value the contributions of all, blending the skills of individual staff members in unsurpassed collaboration.

---

# Innovation

---

■ 

---

 Infuse and energize the organization, enhancing the lives of those we serve, through the creative ideas and unique talents of each employee.

---

# Excellence

---

■ 

---

 Deliver the best outcomes and highest quality service through the dedicated effort of every team member.

---

# Stewardship

---

■ 

---

Sustain and reinvest in our mission and extended communities by wisely managing our human, natural and material resources.

## GOOD / SERVICE

Mayo Clinic is a nonprofit medical practice and medical research group based in Rochester, Minnesota. It employs more than 4,500 physicians and scientists and 57,100 allied health staff. The practice specializes in treating difficult cases through tertiary care. It spends over \$660 million a year on research.

# TECHNOLOGY

- Mayo Clinic has a long history of sharing knowledge to help solve complex medical problems. Through the Mayo Clinic Care Network, this information is reaching patients in new ways. More people than ever before are benefiting from Mayo Clinic expertise — many of whom never walk through Mayo's doors.
- Mayo Clinic defines quality as a comprehensive look at all aspects of a patient's experience. Mayo Clinic patients seek excellence in care, medical knowledge, experience and technology. More:  
<http://www.mayoclinic.org/about-mayo-clinic/quality>
- Mayo Clinic conducts basic, translational, clinical and epidemiological research at its campuses in Arizona, Florida and Minnesota and throughout Mayo Clinic Health System.
